### 20K Hand-Heid Double-Dump Control Guns

- There is an increasing demand for the extra safety of control guns which incorporate dual dump ports. The Advanced Pressure Systems 20K Double Dump Control Guns feature this added security together with the ergonomic advantages and operator comfort of a specially designed front handle.
- This handle is at right angles to the axis of the barrel, which conforms to the natural alignment of the hand and arm of the operator. Other guns simply use two standard handles, which are cumbersome, uncomfortable to use and are heavier.
- Front barrels are 48" long with standard 9/16" MP size.

Part #	Description	Barrel
60-055-001	Complete Hand-Heid Double Dump Style Control Gun	9/16"
